**Shout out to the MVRHS students** who placed second and third in the Novice division and Northeast region in Code Quest, an international computer programming competition!  
Seniors **David Krauthamer, Ben McMahon, Mike Metcalf** and Freshman **Theo Fairchild-Coppoletti** are members of the MVRHS AP Computer Science class. These students used their knowledge of programming languages, Java and Python, to create solutions to 19 problems in a timed setting against 20 other high school teams. Teams consisted of two or three students. In the Novice class students were new to the languages they were using. MVRHS students were the only two-person teams to place! They were the only first-time teams in the Northeast to place! After the competition, the students and their coach, Chris Connors, toured the factory floor to see how the company builds helicopters, such as the Blackhawk!

Pops Concert will be this Thursday, May 2nd in the Performing Arts Center- Come see our amazingly talented students perform!
