

## Happy Summer, Incoming Honors Algebra 1 Students!

Welcome to Martha's Vineyard Regional High School and to Honors Algebra 1! I'm excited to have you in our classes next year and look forward to the great work you'll undoubtedly accomplish. To help you prepare and keep your math skills sharp, you will be completing a summer assignment using the **DeltaMath** online platform.

To access the assignment, please email me, Mrs. Flanders, at [csylva@mvrhs.org](mailto:csylva@mvrhs.org). I'll reply with the class code and login instructions. Be sure to reach out as soon as possible so you can get started.

The assignment is **due on the first day of class**, so please plan your time accordingly. During the first two weeks of school, there will be an assessment based on the summer work. This will help ensure everyone starts the year with a strong foundation and is ready for the pace of the course.

### **Important Note:**

This assessment will count as your first major grade of the quarter and cannot be retaken or revised. If you find the material especially challenging, it may be a sign that this course's level of rigor will be difficult to manage.

If you don't have access to technology at home and need a school-issued Chromebook, please contact **John Fiorito** ( [jfiorito@mvyps.org](mailto:jfiorito@mvyps.org) ) in the Guidance Department to make arrangements.

This summer work is a great opportunity to begin the year confident and prepared. I hope you enjoy the challenge—we're all looking forward to meeting you in the fall!

Warmly,

**Mrs. Flanders**

Mathematics Department Chair
